Where can I find my payslips and tax documents in MyVDL?

You can consult pay slips, individual accounts and tax documents at any time in MyVDL under the 'My documents' widget or via the 'Document management' tile.

Do I still need to download my paychecks?

No, that is not necessary but of course it is possible. Your payroll documents are safely stored. Even when you leave your job, your payroll documents will remain available for 10 years.

Why does VDL promote getting my paychecks only digital?

Your payslips are made available on the MyVDL platform. This offers many advantages:

- You receive your payslip faster
- You can consult it at any time
- Your payslips remain available online for up to 10 years after leaving employment. So you always have the necessary copies to hand.
- Your payslip cannot get lost in the post and/or be delivered to the wrong address by mistake
- It is more environmentally friendly
- You help VDL to save costs

How can I let you know that I no longer wish to receive my payslip on paper?

If you have not yet given permission to stop receiving your payslip on paper, you can still inform your manager and/or MyVDL contact person of this. You can find the form at "Downloads".

How do I receive my paycheck if I do not have or have not provided an email?

Then it will be sent to you by post.
